

**For Immediate Release**

## **Firm Solutions and assure360 Consolidate to Offer Expanded Law Firm and Mortgage Servicer Solutions**

*New single company now offers complete technology, outsourcing and consulting solutions as one brand within the a360inc family of companies*

**CARROLLTON, TX – July 13, 2017** - a360inc, a leading employee-owned legal and financial services technology and outsourcing company, today announced the consolidation of Firm Solutions and assure360. Now known solely as Firm Solutions, the newly formed entity will offer a comprehensive and innovative approach to technology and outsourcing solutions for law firms and mortgage servicers. As a result of the consolidation, Firm Solutions becomes the sole provider of technology, outsourcing and consulting solutions for the a360inc family of companies.

The consolidation of the two companies sets the stage for new solution offerings including the debut of a new, unrivaled technology-enabled compliance solution for law firms and servicers. This revolutionary platform is slated for launch in the Fall of 2017 and is custom built for the changing compliance, vendor management and audit requirements that law firms and servicers contend with in today's dynamic regulatory environment.

"Law firms and mortgage servicers are both in the process of recalibrating to the new-normal of the default servicing industry. As the market continues to transition from the capacity challenges of recent years to the mounting compliance and performance burdens, new solutions and new thinking are imperative. Demand for innovative technology and new approaches to data-enabled outsourcing options that offer operational efficiency gains and ensure compliance will continue to increase," said Scott Brinkley, CEO of a360inc. "Bringing these two companies together will increase our ability to deliver relevant and highly impactful solutions to the marketplace. The new Firm Solutions will now be able to fully realize the combined strength of our operational knowledge, practice management expertise and the innovation of our technology offerings."

Firm Solutions is a recognized leader in legal business process consulting and outsourcing solutions that include invoicing, billing, collections, vendor management and auditing technology and compliance management.

assure360, is best known for its innovative and customizable case management system, *ProMatters*, and its data center operations and related IT outsourcing solutions.

"As we continue to evolve our practice management solutions, this strategic decision enables us to deliver a more streamlined, cohesive and complete offering to the industry. Organizationally and operationally, this single-company approach will enable us to better develop, deliver and market the innovative solutions we know the industry needs," continued Brinkley. "With new products poised for release and the active pursuit of additional strategic acquisitions, the industry can expect more major announcements in the immediate future."
